New Literature - Permabond Adhesives for Medical Devices

SOMERSET, NJ –Permabond® Engineering Adhesives announces the availability of its latest bulletin on its Medical Device Product Line. This bulletin contains information regarding products for Disposable Device Assembly, Diagnostic & Surgical Equipment, and Assistive Devices & Technology. Detailed information on new biocompatible products such as Permabond 820, a high temperature cyanoacrylate for surgical equipment and Permabond 4UV80 series for needle bonding are included.

Permabond is an ISO 9001:2000 certified manufacturer of adhesives and sealants. Whether manufacturing needles, face masks, blood collection reservoirs, filters, scalpels, and catheters, pumps, x-ray machines, defibrillators, in vitro diagnostic equipment, wheel chairs or prosthetics, Permabond adhesives and sealants are relied upon by quality conscious manufacturers worldwide.

Permabond is a global manufacturer of engineering adhesives and sealants for manufacturing, assembly, repair, and maintenance. Permabond manufactures cyanoacrylates (instant adhesives), anaerobics (for threadlocking, retaining, gasketing and pipe sealing), structural adhesives (one or two component epoxies and toughened acrylic adhesives), and UV & visible light curable adhesives. Permabond products are sold worldwide through authorized distributors.

For an electronic copy of the new bulletin email us at info.americas@permabond.com. Or contact Permabond by mail: 223 Churchill Ave, Somerset, NJ 08873; phone: 800-640-7599; fax: 800-334-3219 or email info.americas@permabond.com. You may also visit our website at www.permabond.com.
