PERMABOND LH050 PROVIDES AN INSTANT LEAK FREE SEAL

SOMERSET, NJ – Permabond® LH050 pipe sealant prevents leaks in sprinkler systems. Permabond LH050 is UL Listed and replaces pipe dope and tapes with a 100% leak free seal. Joints typically exceed the burst rating of the pipe and are locked against vibration loosening, eliminating repair costs due to call-backs.

LH050 will seal even when the direction the pipe must face does not allow the complete seating of the threads. LH050 will also seal joints of pipes with damaged threads. Disassembly is possible using normal tools. A variety of packaging is available for use in fabrication and installation.

Permabond is a global manufacturer of engineering and industrial adhesives and sealants for manufacturing, assembly, repair and maintenance. Permabond's commitment to quality assures reliable solutions for the most demanding applications. Permabond offers a complete line of adhesive technologies, technical service support, and custom formulating.

For technical information or for a local distributor, please contact Permabond by mail: 20C World's Fair Drive, Somerset, NJ 08873; phone: 800-640-7599; fax: 800-334-3219 or email: help.americas@permabond.com. You may also visit our website at www.permabond.com.
