Permabond Processing Control Solutions – Product Brochure Release

SOMERSET, NJ – Permabond® Engineering Adhesives new product brochure provides solutions for the Processing Control Industry. The brochure contains the full line of anaerobic, cyanoacrylate, epoxy and toughened acrylic adhesives and sealants. These products cover a wide range of applications for threadlocking, retaining, gasketing, pipe sealing, 'o' ring bonding, gasket and filter placement, machine metal label attachment and general bonding such as structural mounting and motor magnet bonding. Included in the range are products for high temperature, hydraulics and potable water contact applications.

Permabond is a global manufacturer of engineering adhesives and sealants for manufacturing, assembly, repair, and maintenance. Permabond manufactures cyanoacrylates (instant adhesives), anaerobics (for threadlocking, retaining, gasketing and pipe sealing), structural adhesives (one or two component epoxies and toughened acrylic adhesives), and UV - visible curable adhesives. Permabond products are sold worldwide through authorized distributors.

For information or a copy of the new technical literature, please specify English or Spanish and contact Permabond by mail: 20C World's Fair Drive, Somerset, NJ 08873; phone: 800-640-7599; fax: 800-334-3219 or email: help.americas@permabond.com. You may also visit our website at www.permabond.com.
